KUSETJENTISWA KWE HANDIGAS NA PARAFFIN

HANDLING OF LPG AND PARAFFIN

- Nakwetsiwa libhodlela le handigas akumele kutsi ligcwaliswe kakhulu. Libhodlela linelinani lesisindvo lekufanele lililayishe lelibhalwe kulo lelibhodlela.
- Ungasebentisi le handigas endzaweni levalekile ingashaywa ngumoya, Kudzingeka indlu ibenemafasitelo lavulekako.
- Libhodlela ungalibeki esitofini noma endzaweni leshisako.
- Lisebentise limile, lingalali ngemhlabulo nome libheke phasi.
- Ungalihambisi ngemotolo lengakavuleki. Sebentisa iveni kulefwala noma incola levulekile lapho litawuba khona libhodlela.
- Ungayivuli ivalve yekuphefumulisa libhodlela. Yiba nesicini-seko kutsi kule regulator le seal yerabha isesesimeni le-sikahle.
- Uma ubasa, lumeka umetjiso kucala ngaphambi kwekuvula libhodlela .
- Nalingasebenti, ciniseka kutsi livalekile noma ngabe alinalutfo.
- Nawuva kunuka gesi, shesha uvale sivalo selibhodlela bese uvula yonkhe iminyango nema fasitelo. Funa lusito kulokutsengisela logesi

HANDLING OF LPG CYLINDERS

- When filling a cylinder ensure it is not overfilled. Each cylinder size is designed to hold a specific quantity of gas e.g. 3 kg cylinder holds 3 kg gas, etc.
- Never store or use your cylinder in an unventilated room

“Kusebentisa Kahle Emandla kungaciniseka Kuphepha neKonga”

- Never transport your gas cylinder inside a closed car. Always use a van/bakkie where possible
- Do not temper with the valve or regulator and always ensure rubber seal is in good condition
- Do not open the gas before lighting the match or gas lighter
- If not in use, ensure cylinder valve is closed even when empty
- Should you smell a gas leak, immediately turn off the gas at the cylinder valve and open all doors and windows. Get assistance from your dealer.

KUSEBENTISA PARAFFIN

- Intsenge lengiyo yaparaffin ibuketwa nguHulumende, abese watisa sive ngekukhipha simemetelo emaphephandzabeni.
- Titolo letitsengisa paraffin kumele ticuphe kuMatsapha etinkampaneni letinkhulu letinelilungelo lekungenisa bo petrol nabo diesel kulelive.
- Emathange lafakwe tinkampane taphetiloni ngasetitolo nguwona amgcina kahle paraffin
- Lapho kwetsiwa khona, kufanele kube yindzawo levulekile ishaywa ngumoya futsi ingahlali kudla.
- Paraffin akakalwe ngemajeke lanemibhalo lekhomba linani leliphetfwe ngulelojeke.
- Labatsengisako babogeza tandla ngensipho emvakwekutsintsa paraffin.
- Uma umuntfu noma umntfwana asanatse paraffin ngesiphosiso, kumele aphutfunywise emfolamphilu hhayi kumhantisa.

- Nawutseleke ngaparaffin, geza masinyane ugcoke letinye tiphahla kuze ungashi esikhumbeni.
- Sitofu nobe sibane saparaffin asingashiywa sivutsa sodwa singakanakwa ngumuntfu.
- Titofu netibane taparaffin atibekwe endzaweni lapho tingeke tiwe khona.

HANDLING OF PARAFFIN

- Paraffin is a Government regulated product hence it may be sold only at the Gazette Retail Price
- Retailers must Stock direct from Oil Marketing Companies at wholesale price, not at service stations
- Tanks installed by Oil Marketing Companies at retailer's premises are the best solution for storage.
- Where the filling is done, it must be in a well ventilated room which contains no foodstuffs
- Only graduated containers must be used for sales measuring
- Sales people must wash their hands with soap and Water after handling paraffin.
- If it is accidentally swallowed, seek medical attention immediately.
- If you spill paraffin on yourself, wash it off and change your clothes so that it doesn't burn your skin.
- Never leave a burning stove or lamp unattended.
- Always keep paraffin stoves and lamps on a flat surface so they won't fall and start a fire.
